

NDC Electronic Data Services

For use by NDC Members to:

- Import into their back-end system, especially for pricing
- Import into their e-commerce system

Services Provided

- A product data feed consisting of a tab-delimited, flat file containing:
 - Manufacturer ID & Name
 - Product ID, Name, & Extended Description
 - Item ID & Name
(Note: Item ID is the “unique identifier” that can be used to match the data definitively.)
 - Unit of Measure
 - Distributor Price
 - Link to the Product and/or Item level images* if available. (Link is a web address in the form of a URL.)
- A contract data feed consisting of a tab-delimited, flat file containing:
 - Internal Contract Code
 - Contract Owner Name
 - Owner’s Contract ID
 - Contract Status
 - Contract Description
 - Tier Level Code
 - GPO Affiliation
 - Item Code
 - Vendor Name
 - Item Description
 - Standard Reporting Units
 - Contract Cost
 - Start Date & End Date
 - NDC Item Code & Unique Item ID
 - Contract ID (GPOs)
- The data feed can be downloaded as needed from the NDC MemberSite.
- Optional access to an FTP site containing the data feed for use in automating the process of importing data. This FTP site also provides access to the image library should the customer require a local copy of the images on their e-commerce system.
- Access to NDC’s image web server
By using the image links provided in the data feed, the customer can display the image on their e-commerce site without actually having to have a local copy. This also provides access to the most up-to-date library of images available. NOTE: Image quality is designed for use on the web, not for high quality printing.
- Optional: Portable Media copies of images on request.

Member Requirements

- Members must be in “good-standing” according to criteria established by NDC Member Services. These criteria are subject to change and decisions are at the sole discretion of NDC management.
